Addressing the State of our Nation's  
Aging Infrastructure

LET'S REBUILD  
**AMERICA**  
LUNCHEON

FEATURING  
**JANET KAVINOKY**

Wednesday, June 18, 2008  
11:30 AM - 1:30 PM  
Anne Marie's @ Devonshire Place  
12475 Starcrest  
San Antonio, TX

SAMCO, INC.

# LET'S REBUILD AMERICA

We are a growing country with an aging infrastructure that must be modernized and expanded to ensure the safety of Americans and sustain our economic growth.

Today, our infrastructure includes the transportation, energy and telecommunications networks that constitute the physical platform of our economy. Without proper investment in these networks we run the risk of threatening our nation's competitive advantage.

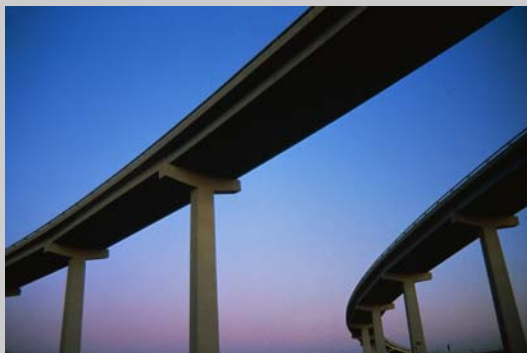

## A LOOK AT THE CONDITION OF U.S. INFRASTRUCTURE

**U.S. Bridges** in adequate or better condition dropped from 91% in 2002 to 84% in 2004, while bridges in substandard or worse condition nearly doubled from 9% to 16% (U.S. DOT)

**Travel on our nation's highways** has grown almost 72% while lane-miles of highways have risen less than 5% (Federal Highway Administration).

**Information** traveling on our nation's information superhighway will increase 500-fold by the year 2020, and estimates to deploy much needed ultra-high-speed networks are totaling at \$400 billion (Bernstein Research).

**Electricity demand** has increased by 25% since 1990, while construction of transmission facilities has decreased by 30% (U.S. Department of Energy).

**Featured Speaker  
Janet F. Kavinsky**

Janet F. Kavinsky is the Director of Transportation Infrastructure in the Congressional and Public Affairs Division at the U.S. Chamber of Commerce. In this capacity, she serves as the Chamber's senior lobbyist and policy expert on all transportation infrastructure issues. In addition, she is the executive director of the Americans for Transportation Mobility—a national business-labor-construction industry coalition that unifies transportation stakeholders to support increased federal investment in an interconnected, multimodal transportation system.

Ms. Kavinsky leads the development of the Chamber's Let's Rebuild America initiative. This initiative educates, engages, and activates Chamber members to reframe infrastructure issues and advance solutions to ensure that the American transportation infrastructure and logistics system allows seamless transportation of goods and people.
